

15 JAN 1980

MEMORANDUM FOR: Chief, Supply Division, OL
Chief, Logistics Services Division, OL

FROM:

Deputy Director of Logistics

SUBJECT: Issue of Remington Rand Safes

Pursuant to meeting the objectives of MBO OL 29-80 (Safe Replacement Program), the Office of Security (OS) is currently conducting an inventory of all obsolete Remington Rand safes in the Headquarters area. Coupled with an extensive Files Reduction Program, it is our goal to eliminate all Remington Rand safes from buildings other than the Headquarters Building during this fiscal year. To support this goal and provide for the integrity of the OS inventory, please ensure that no additional Remington Rand safes are issued to any component located outside of the Headquarters Building. If there are current circumstances, or if any arise, which necessitate circumvention of this restriction, D/L or DD/L approval should be obtained prior to issuing the safes.
